Deadline for manuscript  
submissions:

**15 October 2021**

### Message from the Guest Editors

The diversity of life in aquatic systems is amazing. At the same time, our knowledge on aquatic biodiversity is still significantly insufficient concerning species diversity as well as evolutionary mechanisms of generation of this diversity. Aquatic ecosystems are rapidly degraded due to human activity. We consider biodiversity conservation one of the main challenges for humanity. Accelerated degradation of aquatic habitats may result in elimination of the substantial part of biodiversity before it is scientifically described and documented. Covering organisms from all kingdoms of life, we will accept review papers as well as primary research articles that include original data and high-quality analysis in morphology, ecology, and molecular genetics and genomics. This Special Issue aims to provide a basic resource for researchers interested in the systematic knowledge of aquatic biodiversity, its evolution, as well as conservation.

## Editor-in-Chief

### **Prof. Dr. Michael Wink**

Institute of Pharmacy and  
Molecular Biotechnology,  
Heidelberg University, Im  
Neuenheimer Feld 364, D-69120  
Heidelberg, Germany

## Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

## Author Benefits

**Open Access:**— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [AGRICOLA](#), [GEOBASE](#), [CAPlus / SciFinder](#), and many other databases.

**Journal Rank:** [CiteScore](#) - Q2 (*Agricultural and Biological Sciences*)
